Re: Wing Update

Due to unavoidable delays in production of the new wings, they will be introduced into Star Mazda Championship competition at Round 2 in Houston rather than Round 1 in Sebring. We apologize for the delay, which is due to the Series' concern about a last minute crush to get them into competition leading to compromising quality, which we will not do.

In addition, since Sebring is the last race at which the old-style wings will be used, if you happen to have spares available that you are willing to sell, we would appreciate you communicating that to series officials. This will help provide spares to teams that might damage a wing in practice or qualifying, and will let you liquidate obsolete inventory.

Regards,
Gary Rodrigues
