Re: New wing package / PIR test day

- 1) The new wing package developed for the Star Mazda pro car will not be introduced into competition until the 2009 season, as originally planned. A change in manufacturers and the time required to bring production up to speed has resulted in our decision not to introduce the new parts in mid-season. We are targeting the end of October 2008 for delivery of the new parts to interested teams.
- 2) We have been advised by Portland International Raceway management that there will be a Test day on Thursday, 24 July, 2008. Schedules and entry forms are not yet available, but will be posted on the web site asap.

Regards,

Gary Rodrigues
